PROFESSIONAL SUMMARY

AI & DevOps Enthusiast with experience building AI-powered applications, automation tools, websites and digital solutions. Skilled in Python, Docker, AWS, Jenkins, Git and Kubernetes. Delivered real-world projects for startups, professionals and businesses, focusing on automation, scalability and efficient project execution.

SKILLS

RPA & Automation

Programming: Python, Flask

DevOps & Cloud: Docker, Jenkins, Git, GitHub, AWS

Web Development: HTML, CSS, JavaScript, Streamlit

AI-Assisted Development (Vibe Coding): Proficient in leveraging multiple AI tools for software development, automation, content creation, design and productivity enhancement.

AI Tools: ChatGPT, GitHub Copilot, Gemini, Claude, Cursor AI, Emergent, Gamma AI, Napkin AI.

EDUCATION

- ❖ Renaissance University, Indore | BCA
- ❖ Indore International College, Indore | MCA

CGPA: 6.32 (2025)

Pursuing (2026-28)

EXPERIENCE

- ❖ **Freelance AI Developer & Digital Solutions Consultant | Self-Employed** (2025–Present)
 - Developed websites, portfolios, and digital solutions for professionals and corporate clients.
 - Leveraged AI-assisted development (Vibe Coding) tools to accelerate project delivery.
 - Designed branding materials, presentations and marketing assets.
 - Managed client requirements, project delivery and support while ensuring customer satisfaction.
- ❖ **DevOps Engineer | LinuxWorld Informatics Pvt Ltd** (Feb 2025-Aug 2025)
 - Worked with Docker, Git, GitHub, AWS and Jenkins.
 - Automated deployment workflows and explored CI/CD practices.
 - Built and managed containerized applications.

ACADEMIC PROJECTS

- ❖ **Menu-Based Dockerized Python Utility System**
Designed a CLI tool to automate tasks like container management, remote execution and file handling. Packaged in Docker for portability and CI testing.
- ❖ **AI Medical Report Analyzer Chatbot:**
Built a chatbot using Python, Streamlit, LangChain and Gemini API to analyze uploaded reports (PDF/TXT). Enabled real-time Q&A with vectorized document content and interactive frontend.
- ❖ **Personal Portfolio Website (AI-Assisted Development)**
 - Built a responsive portfolio website using AI-assisted development (Vibe Coding) workflows.
 - Implemented modern UI/UX, mobile responsiveness and interactive components.
 - Showcased projects, skills and professional achievements through a personalized web platform.
- ❖ **Client Portfolio & Business Websites (AI-Assisted Development)**

- Developed portfolio websites, landing pages, and business websites for professionals and corporate clients.
- Leveraged AI tools to accelerate design, development, content creation and project delivery.
- Customized branding, layouts, and user experiences based on client requirements.

LEADERSHIP EXPERIENCE

- ❖ *Indore Management Association Intern* (Feb 2026-Apr 2026)
- Created a marketing portfolio to help increase membership.
- Proposed lead generation strategies to increase membership growth.
- Developed campaigns and improved branding.
- Improved audience engagement through targeted campaigns and outreach strategies.

ACHIEVEMENTS / HOBBIES

- Developed **PyMenu**, a Python-based DevOps automation tool.
- Built a personal portfolio website showcasing projects and skills.
- Learning new technologies and programming languages.
- Building software and automation projects.
- Listening to music and browsing the internet.
